

Hole Dozer holesaw set - 10pc | HOLE DOZER™ bi-metal holesaws - sets

- Cutting edge technology for maximum productivity.
- Tooth design - A variable 4 - 6 teeth per inch tooth design with a positive 10° tooth angle provides the following benefits: - Faster and more aggressive cut. - Improved heat dispersion during cutting ensures that the teeth stay sharper for longer. - Deeper curved gullets provide more efficient chip clearance preventing clogging and heat build up. - Special shaped tooth angle has less tendency to snag on thinner materials. - Teeth are alternate side set to minimise binding and friction. - Requires less feed pressure - This is achieved by the combination of aggressive tooth geometry and good chip clearance resulting in the requirement of less force during drilling.
- Tooth material - Type Matrix II premium high speed steel is used for the toothed area of the holesaw. Matrix II steel contains 8% cobalt allowing the teeth to retain the original tooth hardness even at high working temperatures when used in metal cutting applications. - Bi-Metal construction -

Article Number 49224201

Contents 6 x holesaws: 25, 32, 40, 54, 68, 76 mm. Arbor for 14 - 30 mm (49567010). Arbor for 32 - 152 mm (49569100). 2 x pilot drill bits. 1/8" allen key

Pack quantity 10

Supplied in Plastic case
