

Hole Dozer holesaw set - 7pc | HOLE DOZER™ bi-metal holesaws - sets

- Cutting edge technology for maximum productivity.
- Tooth design - A variable 4 - 6 teeth per inch tooth design with a positive 10° tooth angle provides the following benefits:
 - Faster and more aggressive cut.
 - Improved heat dispersion during cutting ensures that the teeth stay sharper for longer.
 - Deeper curved gullets provide more efficient chip clearance preventing clogging and heat build up.
 - Special shaped tooth angle has less tendency to snag on thinner materials.
 - Teeth are alternate side set to minimise binding and friction.
 - Requires less feed pressure - This is achieved by the combination of aggressive tooth geometry and good chip clearance resulting in the requirement of less force during drilling.
- Tooth material - Type Matrix II premium high speed steel is used for the toothed area of the holesaw. Matrix II steel contains 8% cobalt allowing the teeth to retain the original tooth hardness even at high working temperatures when used in metal cutting applications. - Bi-Metal construction -

Article Number 49224083

Contents 5 x holesaws: 19, 22, 25, 29, 32 mm. Arbor for 14 - 30 mm (49567010). Spacer and adaptor. 1/8" allen key

Pack quantity 7

Supplied in Plastic case
