

armorgard
turntable truck™

For transporting bulk quantities of material and equipment

Our **Turntable Truck**, or 'Platform Trolley' has been engineered to do just that, taking the full strain of transporting bulk quantities of material and equipment when you really need it. Finished to Armorgard's exceptional specification, our **Turntable Truck** features large, puncture proof solid rubber wheels, a raised heavy duty deck for good ground clearance and easy loading and a precision steering mechanism for easy manoeuvring.
